

## BPP i9

### Solid and strong 6-runner plastic pallet for loads up to 1500 kg in the high rack

This strong pallet which is made with gas-assist low pressure injection technology sets a new standard for the European beverage industry. Thanks to the unique anti-slip strips and grommets, it ensures a firm and safe handling of your goods. The extra wide opening between the blocks enables an easy use and prevents damaging of the pallet.

#### Anti-slip options

- Strips topside deck
- Grommets underside for forks
- Insert rubber blocks

Grommets under deck

Rubber insert under blocks

Anti-slip strips on deck

#### Bottom support

6 runners [6R]

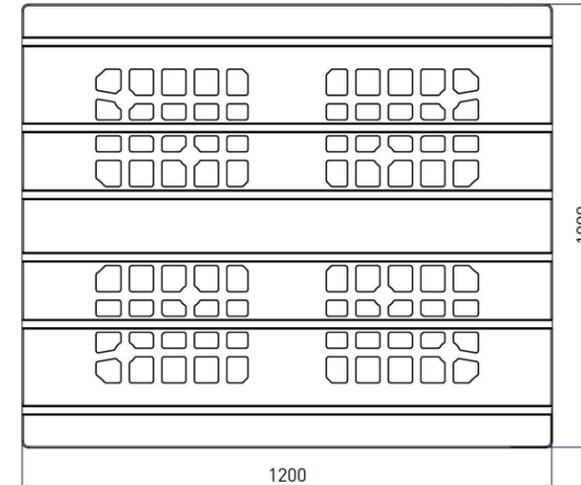

#### Deck options

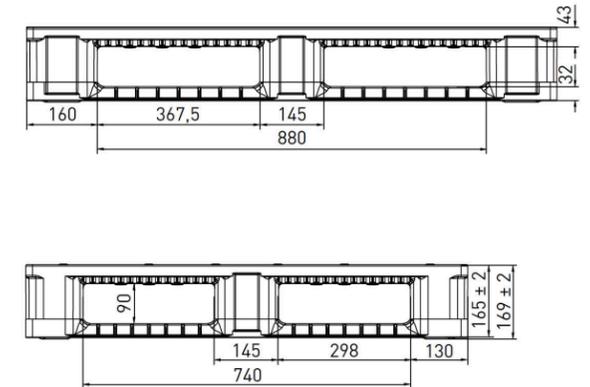

Open Deck [OD]
