

## Nest US5.1

### Nestable plastic pallet in imperial units 48" x 40" for medium loads

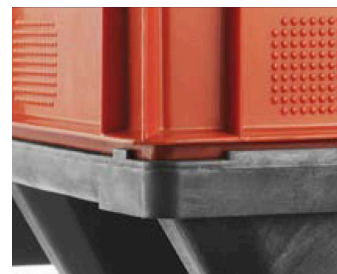

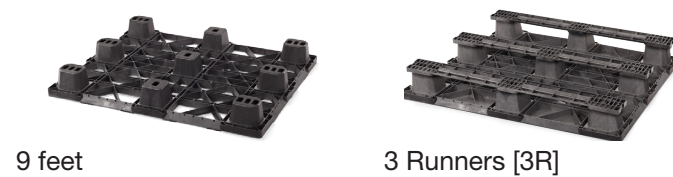

The CPP Nest is the newest universal 48x40 inch pallet. Suitable for medium loads, it offers a choice between a nestable version and three different skid versions (3, 5 and 6 skids). All versions are also available with a closed deck. This protects the cargo from pressure points and soil from below.

#### Bottom support

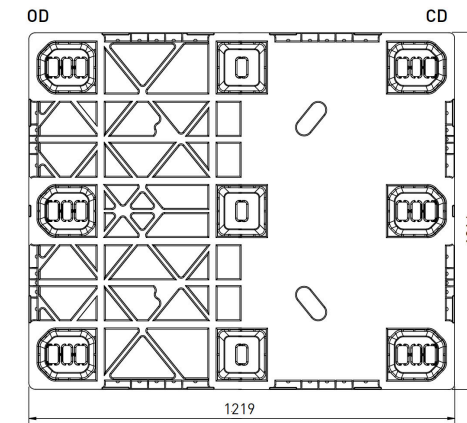

#### Deck options

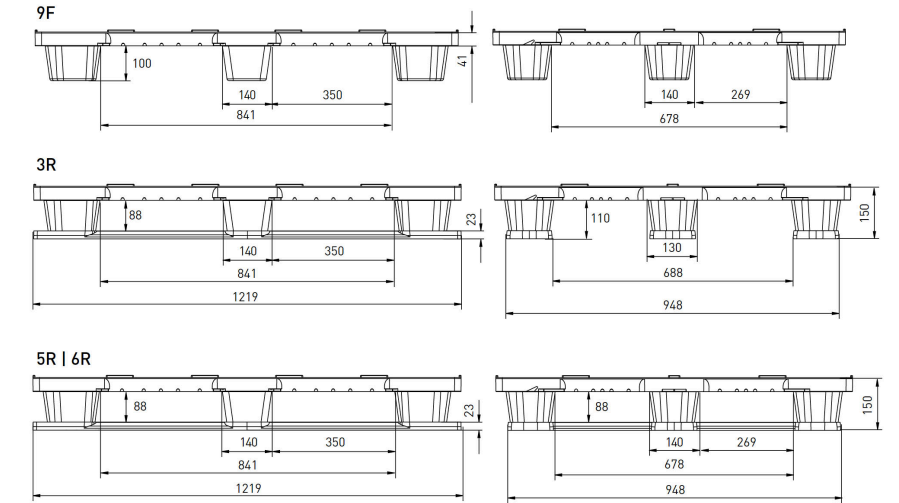

Optional without safety rim
